TABLE OF CONTENTS

1	Introduction	2
2	Proposed Research Project	2
3	Project Planning and Timeline	2
4	Implemented Feature A (you are free to modify this title text)	2
4.1	Introduction/Overview (please change the title as necessary)	2
4.2	Details of Implementation 1 (please change to reflect your implemented feature)	2
4.3	Details of Implementation 2 (please change to reflect your implemented feature)	2
5	Lessons Learned and Future Work.....	3
6	Concluding Remarks.....	3
7	Appendix	3
7.1	Appendix A: Installation Guide	3
7.2	Appendix B: User Guide	3
7.3	Appendix C: Dataset and API Used (You May Change the Title as Necessary)	3
7.4	Appendix D: Hardware, Software, Cloud, Architecture, etc., (You May Change the Title as Necessary)	3
7.5	Appendix E: Code Explanation (You May Change the Title as Necessary)	3

1 INTRODUCTION

This is the introduction part of your proposal.

2 PROPOSED RESEARCH PROJECT

This is the proposed research project of your proposal.

3 PROJECT PLANNING AND TIMELINE

This is the proposed research project timeline.

4 IMPLEMENTED FEATURE A (YOU ARE FREE TO MODIFY THIS TITLE TEXT)

This is where you need to describe all the work, approach and implementation you have done in your project. Try as much as you can to align the part here with the proposal part in the previous sections.

This template provided three subsections of this part of implementation. You are free to add or reduce the number of subsections to match whatever work you have done. The text of the Section and Sub-section should be modified to match with your work.

4.1 INTRODUCTION/OVERVIEW (PLEASE CHANGE THE TITLE AS NECESSARY)

You may want to provide some introduction or overview on this part of the documentation. In here, you may connect the implementation details with your proposed research objectives and timeline, research that has been done, changes in directions that was implemented, etc.

4.2 DETAILS OF IMPLEMENTATION 1 (PLEASE CHANGE TO REFLECT YOUR IMPLEMENTED FEATURE)

This is where you describe your solution, and implementation of your features. Provide illustrations, diagram, architecture, etc., of the implemented feature as necessary. Provide screenshots of your code and explanations as necessary.

4.3 DETAILS OF IMPLEMENTATION 2 (PLEASE CHANGE TO REFLECT YOUR IMPLEMENTED FEATURE)

This is where you describe your solution, and implementation of your features. Provide illustrations, diagram, architecture, etc., of the implemented feature as necessary. Provide screenshots of your code and explanations as necessary.

5 LESSONS LEARNED AND FUTURE WORK

Provide the reflections and important lessons you have learned from your research project, how it is related with your coursework (if any), your future career aspirations and future work that you may carry forward from your applied research work.

6 CONCLUDING REMARKS

You put your concluding remarks of your project here. You may also acknowledge your colleagues, Douglas College and whoever has helped you in your project.

7 APPENDIX

Please make some additional notes if you think it will help people understand your work. This include information the installation guide, the user guide and anything about the system/software you are using (that the company allow you to share, if you work with a company), datasheet (explanation of) of hardware/components you used (if any), etc.

7.1 APPENDIX A: INSTALLATION GUIDE

7.2 APPENDIX B: USER GUIDE

7.3 APPENDIX C: DATASET AND API USED (YOU MAY CHANGE THE TITLE AS NECESSARY)

7.4 APPENDIX D: HARDWARE, SOFTWARE, CLOUD, ARCHITECTURE, ETC., (YOU MAY CHANGE THE TITLE AS NECESSARY)

7.5 APPENDIX E: CODE EXPLANATION (YOU MAY CHANGE THE TITLE AS NECESSARY)
